PROFILE

B.Tech Artificial Intelligence & Data Science student at KCG College of Technology, Chennai, with a completed Python Development internship and hands-on experience building backend APIs and RAG-based AI applications. Comfortable across the stack - Flask/FastAPI and MySQL on the server, React and vanilla JavaScript on the client. Looking for entry-level software roles and internships.

EXPERIENCE

Python Development Intern | Numota Technology — Jun 2026 - Jul 2026
Nithiravilai, Kanyakumari, Tamil Nadu | Offline

- Completed a four-week internship focused on Python development, working on practical programming tasks alongside the Numota Technology team.
- Awarded a Certificate of Completion on 04 July 2026 (Reg. No. 9124243009).

PROJECTS

Marginalia - AI Academic Research Assistant — Personal project
Python | FastAPI | React | TypeScript | FAISS | Celery | Redis | Docker

- Built a full RAG pipeline - PyMuPDF extraction, page-tagged chunking, sentence-transformers embeddings, per-paper FAISS retrieval and Gemini answers grounded strictly in the uploaded paper with page citations.
- Implemented asynchronous PDF processing with Celery and Redis and JWT-secured REST APIs on FastAPI and MySQL, with a React/TypeScript interface and a Docker Compose setup covered by pytest.

Interview Prep Backend — Personal project
Python | Flask | JWT | MySQL | Gemini

- Built a Flask REST API with JWT authentication, resume PDF parsing and Gemini-generated interview questions, storing users, sessions and history in MySQL via SQLAlchemy.

Personal Portfolio — Personal project
HTML5 | CSS3 | JavaScript

- Designed and built a responsive single-page portfolio with a token-based CSS design system, semantic markup, accessible navigation and vanilla JavaScript interactions.
